I, Gene Summy, do hereby declare that:

1. I am the named inventor of the above-captioned patent application, and I am familiar with the prosecution of the application, including the Response accompanying this Declaration.
2. I am advised that certain pending claims have been rejected as being anticipated by or obvious over U.S. Patent No. 6,401,401 to Williams.
3. I am informed that the filing date of Williams is October 20, 2000.
4. Prior to October 20, 2000, I conceived and reduced to practice the invention recited in the claims, as shown by the following evidence.
5. The enclosed photographs depict an embodiment of the flashing system on which at least Claim 1 reads. In particular, the photograph labeled "A" depicts a corner of a recessed window frame. A first member resides in the corner of the frame. The first member includes horizontal and vertical seating flanges, and first and second flaps. These photographs clearly establish that the invention recited in the claims was reduced to practice at least as early as the date(s) on which the photographs were taken.
6. All of the photographs were taken on or before October 13, 2000. Thus, all the enclosed photographs antedate the filing date of Williams.
